

All delivered goods are in compliance with the current EU legislation and German regulations. Organic products also meet the orientation values of the Association of Organic Processors, Wholesalers and Retailers in Germany (BNN). [BNN e.V. - BNN Orientation value \(n-bnn.de\)](http://BNN e.V. - BNN Orientation value (n-bnn.de))

A total number of max. 3 pesticides for nuts, max. 4 pesticides for seeds/other products and max. 5 pesticides for dried fruit/vegetables per lot/batch is tolerated.

The acceptable exhaustion of the maximum residue levels (MRL) is max. 33% per pesticide and 80% in sum. The acceptable exhaustion of the acute reference dose (ARfD) is max. 50% per pesticide and in sum. The acceptable exhaustion of the acceptable daily intake (ADI) is 100% per pesticide and in sum.

Exclusion List

The following pesticides are not applicated and detectable above the quantification limit of 0,01 mg/kg without taking into account the measurement uncertainty in all delivered goods.

1,3-dichloropropene	Diflubenzuron	Neonicotinoide
Abamectin	Dimethoate	Nicotine
Acephat	Dimoxystrobin	Nitenpyram
Acetamiprid	Dinocap	Nithiazin
Acetochlor	Dinoseb, einschließlich Dinosebacetat und andere Salze	Nitrobenzene
Acifluorfen, sodium	Dinotefuran	Noviflumuron
Acrinathrin	Dinoterb	Omethoate
Acrolein	Diphacinone	Oryzalin
Alachlor	Diquat inkl. Seine Salze	Oxamyl
Alanycarb	Diquat dibromide	Oxydemeton-methyl
Aldicarb	Diquat dichloride	Oxyfluorfen
Aldrin	Disulfoton	Paichongding
alpha-BHC; alpha-HCH	Diuron	Paraffin oils; mineral oils
Alpha-chlorohydrin	DNOC and its salts	Paraquat dichloride (and its salts)
Aluminum phosphide	Dodine	Parathion
Anthracene oil	Edifenphos	Parathion-ethyl
Anthraquinone	Endosulfan	Parathion-methyl
Arsen and its compounds	E-Phosphamidon	Paris green; Copper(II) acetoarsenite
Azafenidin	Epichlorohydrin	PCP; Pentachlorophenol
Azamethiphos	EPN	Permethrin
Azinphos-ethyl	Epoxiconazole	Phenthoate
Azinphos-methyl	Esfenvalerate	Phorate
Azocyclotin	Ethiofencarb	Phosphamidon
BAC (Benzalkonium chloride)	Ethion	Phosmet
Bendiocarb	Ethoprophos; Ethoprop	Phosphine
Benfuracarb	Ethoxyquin	Pirimiphos-methyl
Benomyl	Ethylene dibromide; 1,2-dibromoethane	Potasan
Erstellt / Geändert von: H. Petsch Am: 12.06.2023		Geprüft von: H. Damro Am: 12.06.2023
		Freigegeben von: H. Damro Am: 12.06.2023

Bensulide	Ethylene dichloride; 1,2-Dichloroethane	Prallethrin
Bensultap	Ethylene oxide	Procymidone
Benthiavalicarb-isopropyl	Ethylenethiourea	Profenofos
Beta-cyfluthrin; Cyfluthrin	Famphur	Profoxydim
beta-HCH; beta-BCH	Fenamiphos	Propachlor
Binapacryl	Fenazaquin	Propargite
Bioresmethrin	Fenbuconazole	Propetamphos
Blasticidin-S	Fenchlorazole-ethyl	Propineb
lead arsenate (Lead hydrogen arsenat)	Fenitrothion	Propoxur
Borax; Borate salts	Fenpropathrin	Propylene oxide, Oxirane
Boric acid	Fenthion	Prothiofos
Brodifacoum	Fentin acetate; Triphenyltin acetate	Pyraclofos
Bromadiolone	Fentin hydroxide; Triphenyltin hydroxide	Pyraflufen-ethyl
Bromethalin	Fenvalerat	Pyrazachlor
Bromophos-ethyl	Ferbam	Pyrazophos
Bromoxynil	Fipronil	Pyrazoxon (diethyl 5-methylpyrazol-3-yl phosphat)
Bromoxynil heptanoate	Flocoumafen	Pyridaphenthion
Bromoxynil octanoate	Fluazinam	Pyridiphenthion
Butachlor	Fluazolate	Pyrimidifen
Butocarboxim	Flucythrinate	Quinalphos
Butoxycarboxim	Flufenacet	Quinoclamine
Cadusafos	Flufenoxuron	Quinolin-8-ol; 8-hydroxyquinoline
Calcium arsenate	Flumetralin	Resmethrin
Calcium cyanide	Fluometuron	Rotenone
Captafol	Fluoroacetamide	Silafluofen
Carbaryl	Flusilazole	Simazine
Carbetamide	Flusulfamide	Sodium cyanide
Carbofuran	Fluthiacet-methyl	Sodium fluoroacetate -1080
Carbosulfan	Forchlorfenuron	Spirodiclofen
Cardusafos	Formaldehyde	Strychnine
Cartap	Formetanat	Sulfluramid
Cetrimoniumchlorid	Fosthiazate	Sulfotep
Chinomethionat; Oxythioquinon	Furathiocarb	Sulfoxaflor
Chlorbenzilat	Furfural	Tau-fluvalinate
Chlordane	Furilazole	TCMTB (Benzothiazol-2-ylthio)methyl thiocyanate
Chlordecone	Glyphosat	Tebupirimifos
Chlordimeform	Halfenprox	Tefluthrin
Chlorethoxyphos	Haloxypop and its esters and salts	Temephos
Chlorfenapyr	Halosulfuron-methyl	Tepraloxymifos
Chlorfenvinphos	Heptachlor	Terbufos

Chlorfluazuron	Heptenophos	Terbuthylazin
Chlormephos	Hexachlorbutadien	Terrazole; Etridiazole
Chloroform	Hexachlorobenzene	Tetrachlorvinphos
Chlorophacinone	Hexachlorocyclohexane; BHC mixed isomers	Tetramethrin
Chlorophene; 2-benzyl-4-chlorophenol	Hexaflumuron	Thallium(I)-sulfat
Chloropicrin	Hydrogen cyanide	Thiacloprid
Chlorotoluron	lambda-Cyhalothrin	Thiamethoxam
Clothianidin	Indoxacarb	Thiocyclam
Chlorpikrin	Imazalil sulfate	Thiodicarb
Chlorpropham	Imidacloprid	Thiofanox
Chlorpyrifos	Imidaclothiz	Thiometon
Chlorpyrifos-methyl	Imiprothrin	Thiosultap and its esters and salts
Chlorpyrifos(-ethyl)	Isoxaflutole	Thiourea
Chlorthalonil	Isooxathion	Thiram in formulations with benomyl and carbofuran
Coumaphos	Lactofen	Toxafen (Camphechlor)
Cycloxaprid	Lindane (gamma-HCH)	Tioxazafen
Cyfluthrin	Karanjin	Tolfenpyrad
Cypermethrin	Magnesium phosphide	Tolylfluamid
Cypermethrin, -zeta	Maneb	Tralomethrin
Daminozide	Mecarbam	Tri-allate
DDAC (Didecyldimethylammonium chloride)	Mecoprop, MCPP	Triazophos
DDT (Dichlorodiphenyltrichloroethane)	Mercury and its compounds and salts	Tribufos, Tribuphos
Deltamethrin	Metam-potassium	Tributyltin compounds
Demeton-methyl (isomere mix of O-methyl and S-methyl)	Metam-sodium	Trichloroacetic acid
Diafenthiuron	Methabenzthiazuron	Trichlorfon
Diazinon	Methamidophos	Tridemorph
Dichlobenil	Methidathion	Trifluralin
Dichlorvos; DDVP	Methiocarb	Triphenyltin (fentin) and its salts
Diclofop-methyl	Methomyl	Validamycin
Dicofol	Methoxychlor	Vamidothion
Dicrotophos	Methyl bromide	Vinclozolin
Dieldrin	Metiram	Warfarin
Difenacoum	Mevinphos	XMC
Difethialone	Milbemectin	zeta-Cypermethrin
Naled	Mirex	Zinc phosphide
Z-Phosphamidon	Molinate	Ziram
	MON 4660; AD 67 (herbicide safener)
